AN ENLIGHTENED

CONCEPT

■ This Fjord motor yacht is a boat without borders. Nothing separates owner and guests from nature, wind, and the sea. The Fjord 40 open is a racer for all occasions and a broad range of weather conditions. She is 12 meters long with a beam of 4 meters and a lot of freeboard, offering superior safety thanks to her high bulwark.

This Fjord embodies different moods. There are moments that are best appreciated 'un-screened': A beautiful sunrise; or twilight in the shadow of a lighthouse.

FJORD 40
open

■ Driving a 40 open for the first time is an unforgettable experience from starting the twin Volvo-Penta diesel engines in port to feeling her speed at sea.

Take your time to explore all that the Fjord 40 open has to offer: The sunbathing area at high speed or the open air salon. Take her out by yourself or with your family and friends. There is an endless choice of destinations!

AN OPEN-ENDED

FJORD 40

STORY

A WELCOME

SURPRISE

■ Straight lines instead of frills. The light interior of the 40 open consists entirely of varnished wood. This concept is continued below: Keep it simple! It is enough of a surprise that an open-styled motor yacht offers complete accommodations in the bow, including a full head room.

But you can expect more onboard a Fjord including a TV screen and elegant lighting. Every detail below was carefully styled on the Fjord 40 open: Mark Tucker of Design Unlimited left his mark on her striking interior.

FJORD 40
open

1 The joystick for the Volvo IPS systems is placed in an ergonomically correct position above the steering wheel.

2 The high bulwark offers superior safety. And the 40 open is pleasing to the eye with side decks and the foredeck covered in teak.

3 The 40 open's clean lines are not just for stunning visual effect. Features like retractable cleats make the decks safer as you move about the boat.

4 The ultramodern design includes a leather-covered steering wheel with spokes that add a touch of Mille Miglia at sea.

5 You will find more unique features in the bow, with a large skylight above the forward cabin flanked by cushioned benches.

INTELLIGENT

SOLUTIONS EVERYWHERE

6 The incredibly generous outdoor cushion area raises a question: Where do those cushions go in bad weather? Don't worry: We built-in plenty of storage space.

7 More than 40 knot speeds require a safe cockpit and - on sunny days - a solid bimini.

8 Even the bathing platform and aft deck are teak, standard equipment on the 40 open.

9 Even engine room vents are stylish. The 40 open is a piece of design history.

10 The filler caps for water and diesel tanks are easily reached atop the bulwark. It goes without saying that the bulwark is capped in teak.

FJORD 40

■ The Fjord 40 open will get you comfortably and quickly to the next marina or the next beach. But the best thing is that you don't have to leave her while at anchor.

We provide you with all the comfort you need including an elegant galley and living space below deck. There is no doubt that the Fjord 40 open will take you back home in a flash. Just look at her technical data!
